ABOUT ME

An experienced software engineer with **4.5 years** of expertise in Python, React, K8s, Docker, and more. Adept at bridging communication barriers and crafting user-centric solutions. A rapid learner, always eager to embrace new challenges. I have successfully onboarded and guided new developers, fostering a nurturing and supportive environment. With a positive attitude, an approachable demeanor, and a knack for connecting with others, I am energized by a rejuvenating sabbatical and seek to join a team that shares my passion for making a positive impact on the world.

EXPERIENCE

Senior Full-Stack Developer

FeezBack   📅 2022

FeezBack Aggregate (2020 – 2022) is an Open Banking aggregation and data enrichment platform.

· Acted as the **right-hand to a new CTO**, contributing detailed big-picture insights to key decisions.
· Participated in various **design** and **integration** meetings, engaging with **clients** and internal teams.
· Recruited 2 developers, **interviewed** candidates, personally oversaw **onboarding**, and provided ongoing guidance.
· Led the design and construction of a **Python**-based backend, featuring **Django** API servers and **Celery** workers, while also developing **React**-based user interfaces and companion SDKs for **Android** and **iOS**.

Full-Stack Developer

FeezBack   📅 2018 - 2022

TikTak (2020) was a web-based order management system that was developed for Isracard.

· During a pivotal year, served as the **exclusive hands-on developer** as the startup underwent a substantial reduction in personnel, scaling down from 13 to **3 individuals**, including the CEO and CTO.
· The quick success of the new product secured funding, fueling the company's growth to **over 15 employees**.
· Independently implemented a Python server encompassing robust APIs for orders management, secure payment transactions (via PayMe) and documents signing (via DocuSign).
· Single-handedly developed a React-based customer-facing orders management web app.

EDUCATION

Bachelor of Computer Science

Netanya Academic College   📅 2014 - 2019

Average
96.7 / 100

VOLUNTEERING

Guide

IGY (Israel Gay Youth)   📅 2023

IGY is an Israeli NGO supporting LGBTQ+ youth through social connections and advocacy.

· Co-led a group of 8 LGBTQ+ teenagers from religious backgrounds, designing and implementing weekly content activities to foster a supportive environment.

SKILLS & TECHNOLOGIES

Python   REST   OpenAPI

Celery (with Redis & RabbitMQ)

Django (with PostgreSQL & Oracle DB)

React   JavaScript   HTML   CSS

Kotlin   Swift   Webpack

Docker   Git   Bash   Kubernetes

AWS (API Gateway, Lambda, SQS)

Helm   BitBucket Pipelines   Envoy

PROJECTS

Gödel

📅 2019

🔗 https://github.com/SophiaSaiada/Godel

Was created as a final project for my B.Sc. degree, and is written in Kotlin. The parser was generated dynamically according to a DSL for describing the CFG of the language.
